GTM Engineering | AI Workflows and Data Product Activation

New York, NY | cjwheelock1@gmail.com | 520-891-0750 | linkedin.com/in/cjwheelock

AI product builder with 10+ years in enterprise sales and partnerships. Built source-backed extraction, bounded retries, a local CRM and product analytics workflows. Shipped a revenue-generating iOS app. Brings commercial judgment to activation and reliable customer handoffs.

PROFESSIONAL EXPERIENCE

OMG Goals Incorporated — New York, NY
Founder — 2025 - Present

Public benefit corporation helping young adults build more fulfilling lives.
Hire Line Dancers connects event planners with line dance instructors.
- Built role-based workspaces, private inquiries and service-area/event matching. Ran a research agent swarm: six parallel batches, shared schema, deduplication and QA.
- Built approval-based Stripe billing, verified webhooks and renewal recovery; validated follow-up locally.

SideQuest turns daily life into real-world adventures through themed, city and campus quests.
- Built a local partnership CRM: deduplicated imports, contact provenance, pipeline stages and campaign drafts. Used Supabase MCP for SQL and Edge Function inspection.
- Cut the unpacked local app bundle 47%, from 406.2 MB to 213.9 MB, by moving 1,492 images to cached, on-demand delivery.

Hey Sammy helps people discover recurring local activities.
- Built source-backed extraction: structured records, recurrence, geo checks, deduplication, retry limits, resumable jobs. PostHog MCP queries, funnels and trends informed feedback loops (Aug 2026).
- Reduced database requests for three activity rows from ~37 to 11 in an instrumented local client test.

Sales and GTM Consulting — Remote
Independent Go-to-Market Advisor — 2022 - Present

- Advise early-stage startups on positioning, messaging, outbound sales, and closing.

Tokemak — Remote
Head of Partnerships — Sep 2021 - Aug 2022

- Facilitated liquidity for $13M in partner governance tokens; led partner acquisition and onboarding.

Bebop Sensors — Berkeley, CA
Head of Business Development — May 2017 - Apr 2020

- Closed $2.5M in development revenue and $300K in product sales; sourced and won a $750K USAF SBIR Phase II contract.
- Closed deals with Tesla, BMW, Toyota, Lear and Magna; led technical sales through validation, proposals and contract negotiation.

Enterprise Business Development Manager — Nov 2015 - May 2017

- Reached 124% of quota and earned promotion; prospected Fortune 500 technical and product buyers.

Earlier Experience — 2014 - 2015
Zenefits, Sales Development | TubeMogul, Account Manager, Platform Direct

TECHNICAL TOOLS AND GTM SKILLS

AI and data: Claude, Codex, Cursor, OpenRouter, Serper, Firecrawl, Google Places, Supabase/PostGIS. Evaluated DeepSeek, GLM and Qwen for source grounding and extraction cost; researched Exa.

Development: TypeScript, React, React Native, Expo, Next.js, Node.js, SQLite, Stripe, PostHog.

EDUCATION AND LEADERSHIP

University of Arizona | B.S. in Accounting, Eller College of Management

16 years teaching and building West Coast Swing communities.
